

JANUARY 1ST, 2030

When climate change becomes irreversible

FLEETING

**RUNNING OUT
OF TIME**

DOOMED

REGRETFUL

RAPID

DECLINE

DEATH

“

I'M SCARED FOR MY
FUTURE

DARKNESS

“

**SMALL ACTS MULTIPLIED
BY MILLIONS OF PEOPLE
CAN CHANGE THE
WORLD**

“

**THE CLIMATE IS
CHANGING; WHY AREN'T
WE?**

API IDEA

01

Countdown clock until 2030 but as it gets later in the day the clock slowly decreases in size and will disappear at midnight and then reappear to represent how time is fleeting and we dont have much time left.

API IDEA

02

There is a clock on the screen, but the colors will change depending on the heat/temperature of the location (atx?)

API IDEA

03

Could use moon phases to represent time passing until 2030

API IDEA

04

Count down clock that has a sunrise and sunset element to show the days passing by. The rest of the time between sunrise and sunset the background is black
